

Name:

# Python nightlight

Draw arrows matching the MakeCode blocks to their equivalent in Python code.

```
1  from microbit import *
2
3  while True:
4      if display.read_light_level() < 100:
5          display.show(Image(
6              "99999:"
7              "99999:"
8              "99999:"
9              "99999:"
10             "99999"))
11     else:
12         display.clear()
13     sleep(2000)
```
